

# Comprehensive Physical Exam

*Our practical and fresh approach to your pet's health goes way beyond routine vaccinations.*

## **Dental Health Recommendations** (Most common disease in pets)

*Preventing Dental Disease improves quality and add 2-4 years of life.*

## **Weight Recommendations** (2nd most common disease in pets)

*Preventing Obesity can delay many diseases and add up to 2 years of life.*

## **Nutritional Recommendations**

Diet, Supplements

*(Arthritis, Skin, etc)*

*Nutrition should work for our patients; Diets should prevent disease not create one.*

## **Annual Blood/Urine Screen**

*(Early Detection Program)*

*Our Early Detection Program uncover underlying diseases at an early stage, when it's much easier to treat and the outcome is better.*

## **Behavioral Issues**

*Anxiety/Aggression*

*Activity/Exercise*

*Behavior is a manifestation of mental health. Our goal is to reduce anxiety, aggression, and fear in pets.*

## **Parasites**

External- Ticks/Fleas

Internal- Fecal
